REDA Stipend Discussion

REDA compensation is set by City Council resolution in according to Minnesota Statute with the requirement that the funds come from the EDA budget.

The \$45/meeting rate was set in 1989 to “recognize that significant levels of time will be expended for service on the Economic Development Authority.” In December 1998, the Presidents compensation was increased to \$60/meeting “to provide compensation for the additional service demands of that position.” It has been past practice not to pay a meeting stipend when REDA has a special meeting of a few minutes adjacent to a City Council meeting.
